Traffic from us :D

Hi everyone, if you are looking for some unique visitor to your site, perhaps this would be one of the best deals you can find here

I am providing such traffic randomly (with my friend's help from his own website in china). So majority, you will be getting partial traffic from china (due to the various location in China)

Shall anyone interested, just place your domain name here... perhaps you guys will be getting roughly 1000 unique visitors daily but there isn't any guarantee about it yet (since this is a free service from us here)

Cheap SEO Services

AllSEOSTar - Cheap SEO Services : Organic/Targeted Traffic, DoFollow Backlinks, Social Likes/Followers, etc.

Yes, this is free service at the moment to get some feedback from all of you here. Shall you are happy with the traffic, perhaps you can advise us on the next pricing plan that you are good or willing to so called "purchase" the traffic too... Previously we have tested with few of sample sites containing ads from adsense, adbrite, exitjunctio... etc and no issue / warning for such activity and the ads still loading though (*well, my friend owns some cyber cafe network in China and with some appropriate proxy within his boxes, traffic is seen generating as per expected)

We are providing estimated 1000 uv daily and not all of sudden with increasing traffic up to few hundred thousand hoping to stay low-profile. If you need such amount of traffic daily, this would be good for you but for the current heavily visited site, i guess 1000 uv daily should not within your interest.

Just leave your domain here and watch with googleanalytic or statcounter. Leave us some feedback if the traffic is genuine and reaching your site .
thankyou

p.s. i will be commenting here once we are ready for the traffic setup (the list will be swap every few hours or daily to cope with exisiting list of domains available at the moment)on the selected domains
